

Introducing....

TimberTech

An attractive, low-maintenance alternative to wood

For a unique decking feature, with no tedious maintenance or unsightly mould, moss or mildew, forget standard timber and choose new **TimberTech**.

Features:

- TimberTech is made from a special blend of recycled American hardwood and polymer, it requires nothing more than an annual jet wash to keep it looking as good as new.
- This amazing decking doesn't split, rot, crack, warp or splinter. It even includes an anti-slip finish, so it's much safer when wet, than traditional wood decking.
- You can even choose from a collection of railings and balusters to complete the overall look and safety of the decking.
- TimberTech is installed using the patented Concealoc system, which leaves no visible screws.
- TimberTech is so confident in its product that it comes complete with a 25 year warranty.
- TimberTech is scientifically proven to outperform timber and all other composite products currently available.

Now In Stock.

TimberTech
